# Parallel Project 1st checklist of goals

Daniel Tribaldos

Thursday , May 2024

## 1 First check goals :

- Create our python class which will house specific attributes of our cars

  **Specific attributes I can think of include :**

- Model

- Color

- Manufacturer

- Price

- Type of car ( SUV , SEDAN , ETC.)

- Used vs New car.

- Mileage on the car

- Miles per gallon

- The closest dealership selling said car

- Transmission Type ( Manual , automatic , Hybrid)

- Fuel type ( electric , gas , hybrid)

- We should create a class with capabilities of containing all of this within the class

  **Goals in regards to our database:**

- We will be using Firebase as our database management application

- We should learn how to navigate Firebase by the end of the week

- We should think about and create all needed tables for our database

- We should connect our database to our web application code
